## Experience

### R2 Software

2 years 8 months

#### IT Project Manager

November 2022 - Present (2 years 6 months)

As an IT Project Manager and Full-Stack Developer at R2 Software, I:

- Led and managed multiple e-commerce projects from inception to deployment, ensuring timely delivery and adherence to budget.
- Coordinated with cross-functional teams to achieve project milestones and deliverables.

- Implemented Agile methodologies to streamline project workflows and enhance team productivity.

In my Full-Stack Developer role, I:

- Developed and maintained e-commerce platforms using various technologies to ensure seamless user experiences and robust backend systems.
- Designed and implemented serverless middlewares on AWS, optimizing application performance and scalability.
- Managed Moodle platform developments, including custom theme modifications, plugin developments, and enhancing overall platform functionality.

Additional experience:

- Integrated third-party systems with existing platforms to expand functionality and improve operational efficiency.
- Worked with CMS platforms like WordPress, Shopify, Magento, and custom CMS solutions, tailoring each to meet specific business needs.
- Developed and supported custom features and modifications, providing scalable and flexible solutions for diverse business requirements.

## Full-stack Developer

September 2022 - Present (2 years 8 months)

Tbilisi, Georgia

shopshop.ge

Junior Developer

May 2021 - May 2023 (2 years 1 month)

Tbilisi, Georgia

As a Junior Developer at Shopshop, my initial responsibilities included managing content on the company's website. Over time, I transitioned into a more technical role, focusing on front-end development using the React and Next.js stack. In this capacity, I successfully created several website blocks, implemented bug fixes, and added new features to enhance the site's functionality and user experience.
